September 1979 – June 1984	Specialist Degree, Department of Applied Mathematics, Lviv State University, Lviv, Ukraine.

Experience summary:

Since 1994 my main areas of activities have been teaching, training and consulting in management and operations management. In 1996 I accepted the position of Director of the Business School at Lviv Institute of Management (LIM). During the period of my administration, we started Executive MBA and Modular MBA for managers of non-Lviv residence. In 2000, the School launched BBA program. The Business School of LIM was the centre of international cooperation. We partnered with faculty from University of Michigan, Ivey Business School, St. Thomas University, Torino University and many others. In 2004 I was offered the position of Deputy Dean at Kyiv-Mohyla Business School (kmbs). The School of kmbs was recognised the best business school of Ukraine (2005, 2006, 2007). In 2006 together with journal “Expert-Ukraine”, we held a national competition in technological innovations. As the result, I started a new course for top-managers and business-owners – “Innovation Projects Management,” during which professional business people can develop real technological ideas. My latest professional interests are trainings and consulting for companies on building world class operations systems based on Theory of Constraints. Some of my customers were: pharmaceutical corporations, producers of mineral water in Ukraine, the biggest chain of restaurants in Ukraine Fast Food Systems, Avito, a national distributor of Procter and

Gamble in Ukraine, a regional distributor of telecommunication equipment, Universal Insurance Company, The Commercial bank PrivatBank, Joint Stock Company Raiffeisen Bank Aval, etc.
